

## Installation Instructions

**Important: Please read these instructions before starting work.**

1. Check that there are no buried pipes or cables before drilling and holes. Take extreme care when using electrical equipment near water.
2. Do not fix accessories onto newly painted surfaces as chemical reactions could cause discoloration to the products. (Please refer to the manufactures instructions.)
3. We recommend the use of a specialized drill bit when fixing accessories to tiled areas.

### **Supplied Mounting hardware:**

Allen key, mounting posts, screws and wall plugs.

### **Mounting Instructions:**

1. Establish the position for the accessories, making sure there is sufficient room.
2. Measure the center to center distance between posts. Transfer measurements to wall and mark with a pencil. Ensuring the marks are horizontal by use of a carpenter's level.
3. Drill holes to a depth of 1" inch using a ¼" inch drill bit where marked then insert the wall plugs so they are flush with the wall.
4. Using the supplied Allen key loosen set screws located on each post removing mounting posts from inside the upright.
5. Fix the mounting posts onto the wall by inserting the supplied screws through the mounting posts then into the wall plugs and tighten.
6. Position the accessory onto the mounting posts; tighten set screw with Allen key.

### **Care Instructions:**

We recommend regular cleaning with a mild soap and dried with a soft cloth. The use of abrasive cleaners or bleaches will damage the finish.
