

Installation Instructions

Important: Please read these instructions before starting work.

1. Check that there are no buried pipes or cables before drilling and holes. Take extreme care when using electrical equipment near water.
2. Do not fix accessories onto newly painted surfaces as chemical reactions could cause discoloration to the products. (Please refer to the manufactures instructions.)
3. We recommend the use of a specialized drill bit when fixing accessories to tiled areas.

Supplied Mounting hardware:

Screws and wall plugs.

Mounting Instructions:

1. Establish the position for the accessory, making sure there is sufficient room.
2. The decorative escutcheon is held in place on the backplate by a rubber O-ring. Carefully separate the escutcheon and backplate. Measure the center to center distance between posts. Transfer measurements to wall and mark with a pencil. Ensuring the marks are horizontal by use of a carpenter's level.
3. Drill holes to a depth of 1" inch using a ¼" inch drill bit where marked then insert the wall plugs so they are flush with the wall.
4. Fix the mounting plate onto the wall by inserting the supplied screws through the mounting plate then into the wall plugs and tighten.
5. Secure the decorative escutcheon covering the mounting plate.

Care Instructions:

We recommend regular cleaning with a mild soap and dried with a soft cloth. The use of abrasive cleaners or bleaches will damage the finish.
